Acne isn't just for teenagers - it affects up to 80% of adults in their 20's & 30's. In fact, it's the #1 skin problem in the US. Acne is a stubborn condition that often needs a variety of treatment options.

We offer a full spectrum of acne therapy, tailored to your needs. Not only do we have access to the state-of-the art Palomar laser, we also offer ViDerm skin care products. ViDerm products & the ViPeel were created by a physician specifically for his own daughter's acne needs. We also have the added advantage of our expertise in hormonal therapy, antibiotic management, even Accutane!

We will customize a treatment regimen for you based on a thorough assessment of your skin & your treatment goals. All our treatment regimens feature the ViPeel & ViDerm products. Palomar laser photofacials at specific intervals can reduce or even eliminate the need for antibiotic therapy. Colorescience Pro pure mineral makeup also offers uniquely formatted primers for the coverage needs of acne-prone skin. All our products work in concert to give you the healthy, glowing skin you want & the look you'll love!

Mild Acne ~

We start with a ViPeel, then we recommend use of ViDerm Cleanser for oil skin morning & evening, followed by ViDerm Moisturizer nightly. Colorescience Pro Let Me Be Clear primer & powder sunscreen complete your look. we recommend a ViPeel every 3-4 months, depending on your skin's response & seasonal flare-ups.

A \$450 value

\$300

Moderate Acne ~

A somewhat more aggressive approach is needed here. We start with a Palomar Photofacial, then apply a ViDerm peel 2 weeks later.

ViDerm Cleanser & Toner for oily skin in the morning, followed by AHA exfoliating cream, then ViDerm Cleanser & Toner in the evening, followed by ViDerm Moisturizer.

Colorescience Pro Let Me Be Clear Primer & powder sunscreen are included.

We recommend a Photofacial or ViPeel every 2-3 months, depending on your skin's response & seasonal flare-ups.

A \$800 value

\$500

Severe Acne ~

An aggressive treatment regimen is called for. We start with a Palomar Photofacial, followed in 2 weeks for a ViPeel.

In addition to twice daily cleanser & toner, we recommend Ultra A cream in the morning. In addition to the alphahydroxy acids contained in the AHA cream, Ultra A also contains retinol for improved cell turnover in a smooth nondrying cream. Finish with a nightly application of the best moisturizer you'll every use, ViDerm. We recommend a photofacial or ViPeel every 1-2 months, depending on your skin's response & seasonal flare-ups.
